What’s important to you in a graduate school?

Got these questions on your mind? GradSchoolShopper.com has the answers!
This advising guide is a new tool developed by the American Institute of Physics (AIP) for prospective graduate students in the physical sciences and their advisors to use in identifying suitable graduate programs. Specifically, it is intended to be a starting place providing listings of schools with some of the most common criteria students use in selecting where they are going to eventually apply. For maximum impact, this guide should be used in conjunction with the 2019 GradSchoolShopper: Graduate Programs in Physics, Astronomy, and Related Fields website or printed book to discern other important criteria and advance the graduate school selection process. We recommend that this guide be offered in advising and departmental offices and student lounges. Advisors may also want to keep a copy on their desk to use in one-on-one meetings with students.

This advising guide also shows the breadth of what AIP can offer to undergraduates pursuing a graduate career. By drawing on the depth of data offered publicly by AIP’s Statistical Research Center, combining it with the extensive data collected annually by GradSchoolShopper, and adding in advice and alumni profiles offered by the Society of Physics Students and Sigma Pi Sigma, students and faculty get an unparalleled look at the vast array of programs and experiences available. We sincerely hope you find these to be valuable tools in the graduate school application process and would welcome feedback on ways we can improve our services. Feedback may be sent to info@gradschoolshopper.com.
These lists were developed using the Rosters of Physics and Astronomy Departments with Enrollment and Degree Data compiled by the American Institute of Physics’ Statistical Research Center with the addition of schools that are not on those rosters, but are listed in the 2019 Edition of GradSchoolShopper. The original rosters are available at www.aip.org/statistics/graduate.

HELPS YOU
help your physics and astronomy students

Transform students into leaders with the Society of Physics Students
spsnational.org

Recognize outstanding achievements through Sigma Pi Sigma, the Physics Honor Society
sigmapisigma.org

Prepare students for jobs, internships, and research
jobs.spsnational.org

Navigate education and career possibilities
spsnational.org/careerstoolbox

Can we help you with anything else?
Drop us a line: sps@aip.org
Dame Susan Jocelyn Bell Burnell
PhysCon Honorary Chair
Professor of Astrophysics,
University of Oxford
Winner of 2018
Breakthrough Prize

Sandeep Giri
Manager, Advanced Technology
Engineering, Google X

Dr. John C. Mather
Nobel Laureate
Senior Astrophysicist
at NASA Goddard
Space Flight Center

Christopher Michael

Dr. Jami Valentine Miller
Primary Examiner, U.S. Patent
and Trademark Office
Founder, African American
Women in Physics (AAWIP)

Dr. Ellen D. Williams
Distinguished University Professor,
Department of Physics and Institute for
Physical Science & Technology,
University of Maryland

November 14–16, 2019
Downtown Providence, RI
